Death Penalty Research Papers for College Students

The death penalty is one of the cruelest types of criminal punishment, which is performed with the help of different methods such as hanging, electrocution, and lethal injections. It would be possible to say that the death penalty is an effective method of prevention of abhorrent crimes if the statistics showed that it decreased the number of criminal acts.

Powerful, wry essays offering modern takes on a primitive practice, from one of our most widely read death penalty abolitionists As Ruth Bader Ginsburg has noted, people who are well represented at trial rarely get the death penalty. But as Marc Bookman shows in a dozen brilliant essays, the problems with capital punishment run far deeper than just bad representation. Exploring prosecutorial misconduct, racist judges and jurors, drunken lawyering, and executing the innocent and the mentally ill, these essays demonstrate that precious few people on trial for their lives get the fair trial the Constitution demands. Today, death penalty cases continue to capture the hearts, minds, and eblasts of progressives of all stripes—including the rich and famous (see Kim Kardashian’s advocacy)—but few people with firsthand knowledge of America’s “injustice system” have the literary chops to bring death penalty stories to life. Enter Marc Bookman. With a voice that is both literary and journalistic, the veteran capital defense lawyer and seven-time Best American Essays “notable” author exposes the dark absurdities and fatal inanities that undermine the logic of the death penalty wherever it still exists. In essays that cover seemingly “ordinary” capital cases over the last thirty years, Bookman shows how violent crime brings out our worst human instincts—revenge, fear, retribution, and prejudice. Combining these emotions with the criminal legal system’s weaknesses—purposely ineffective, arbitrary, or widely infected with racism and misogyny—is a recipe for injustice. Bookman has been charming and educating readers in the pages of The Atlantic, Mother Jones, and Slate for years. His wit and wisdom are now collected and preserved in A Descending Spiral.

TCR Singles Contains one featured essay from a previous issue of The Concord Review (TCR). TCR contains essays from a unique international journal of exemplary history research papers by secondary students of history. This issue features: "Capital Punishment" was written by Benjamin Patrick Chiacchia while attending Lincoln High School in Lincoln, Rhode Island Abstract: Capital punishment has served a unique function in the American penal system, and its 400-year history in the United States has been surrounded by controversy. While the death penalty has a complicated history of influence, including religious norms, social sentiments, and political fervor, its exercise has often fallen to the will of the people. Activism on both sides, coupled with the normal political processes that influence this contentious facet of criminal justice, has led to a nationwide struggle over the continuation and methods used to carry out capital punishment. In the absence of a constitutional provision regarding the death penalty, debate has and continues to revolve around how and if this form of punishment will continue to be employed by the United States. This paper explores the relationship between the people and the death penalty, as well as the general history of capital punishment and the arguments posed by both sides of the debate.

Essay from the year 2008 in the subject English Language and Literature Studies - Linguistics, grade: 1, University of Marburg (Fremdsprachliche Philologien), course: Academic Writing, language: English, abstract: The question whether capital punishment should be practiced as a penalty for criminals has for a long time been a controversial topic because it concerns people worldwide. It is debatable whether methods of punishment such as the death penalty are an ethical solution to crime.

From 1965 until 1980, there was a virtual moratorium on executions for capital offenses in the United States. This was due primarily to protracted legal proceedings challenging the death penalty on constitutional grounds. After much Sturm und Drang, the Supreme Court of the United States, by a divided vote, finally decided that "the death penalty does not invariably violate the Cruel and Unusual Punishment Clause of the Eighth Amendment." The Court's decisions, however, do not moot the controversy about the death penalty or render this excellent book irrelevant. The ball is now in the court of the Legislature and the Executive. Legislatures, federal and state, can impose or abolish the death penalty, within the guidelines prescribed by the Supreme Court. A Chief Executive can commute a death sentence. And even the Supreme Court can change its mind, as it has done on many occasions and did, with respect to various aspects of the death penalty itself, during the moratorium period. Also, the people can change their minds. Some time ago, a majority, according to reliable polls, favored abolition. Today, a substantial majority favors imposition of the death penalty. The pendulum can swing again, as it has done in the past.

An in-depth examination of what life under a sentence of death is like.

NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America “If you’re one of those people who despair that nothing changes, and dream that something can, this is a story of how it does.”—Anand Giridharadas, *The New York Times* Book Review **WINNER OF THE J. ANTHONY LUKAS AWARD** In 1972, the United States Supreme Court made a surprising ruling: the country’s death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty’s decline, a trend so durable that even in Texas the punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcalá, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation’s death penalty capital, before becoming a judge on the state’s highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This comprehensive book is designed to accompany the primary text in any criminal justice class where writing is emphasized, or can be used as an excellent primary text for a criminal justice course in writing administrative and technical reports. *The Criminal Justice Student Writer's Manual*, 6e is designed to help students learn how to research and write in criminal justice, and improve their writing ability in general. While helping students with every aspect of the writing process—formatting, source citations, grammar, sentence structure, research, and utilizing available sources—it relieves instructors from the time-consuming job of teaching these skills, and allows them to concentrate on the subject matter of the course they are teaching. This book is the most comprehensive book on the market that deals specifically with writing criminal justice papers. It gives specific directions for writing a variety of papers in criminal justice, from introductory to advanced, while also providing instructions on “how to write,” and how to format the paper and cite sources following the American Sociological Association’s and the American Psychological Association’s guidelines. There is really no other book on the market that provides the comprehensive directions to writing papers in criminal justice that are found in *The Criminal Justice Student Writer’s Manual*.

Many studies during the past few decades have sought to determine whether the death penalty has any deterrent effect on homicide rates. Researchers have reached widely varying, even contradictory, conclusions. Some studies have concluded that the threat of capital punishment deters murders, saving large numbers of lives; other studies have concluded that executions actually increase homicides; still others, that executions have no effect on murder rates. Commentary among researchers, advocates, and policymakers on the scientific validity of the findings has sometimes been acrimonious. Against this backdrop, the National Research Council report *Deterrence and the Death Penalty* assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates. This new report from the Committee on Law and Justice concludes that research to date on the effect of capital punishment on homicide rates is not useful in determining whether the death penalty increases, decreases, or has no effect on these rates. The key question is whether capital punishment is less or more effective as a deterrent than alternative punishments, such as a life sentence without the possibility of parole. Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates. The report recommends new avenues of research that may provide broader insight into any deterrent effects from both capital and noncapital punishments.

This paper examines Chinese students' attitudes about the death penalty in contemporary China. Drawing upon Western public opinion research on the death penalty, samples of Chinese college students at home and abroad are used to explore the magnitude of their pro-death penalty attitudes and sources of variation in these opinions. Both groups of Chinese students are found to support the death penalty across different measures of this concept. Several individual and contextual factors are correlated with pro-death penalty attitudes, but the belief in the specific deterrent effect of punishments was the only variable that had a significant net effect on these attitudes in our multivariate analysis. The paper concludes with a discussion of the implications of this study for future research on public opinion about crime and punishment in China.

Why does the United States, alone among Western democracies, still have the death penalty? It's not a new question, but David Garland provides fresh answers from a multilayered analysis...The title hints at the most provocative part of Garland's answer. In American history, the "peculiar institution" is slavery. Anyone who thinks its vestiges were wiped out by the Emancipation Proclamation or civil rights laws should read this book and think again.
