Gain a solid foundation in Canadian maternity and pediatric nursing! Written in a clear, concise, friendly style, Leifer's Intro to Maternity & Pediatric Nursing in Canada, is the first Canadian edition of the best-selling Leifer textbook. Fully revised by author, Lisa Keenan-Lindsay, RN, MN, PNC(C), it includes Canadian statistics, terminology, references, guidelines, resources, Canadian nursing best practices, assessments, and more! It's organized by developmental stages and includes discussions of pediatric disorders by body system from simple-to-complex and health-to-illness. With a rich focus on family health, this text contains exam-style review questions, case studies, and numerous other pedagogical features to give you the tools you need to successfully care for patients within the Canadian social and institutional context. Logical organization of content by simple-to-complex and health-to-illness, make it easy for students to locate and access information. Health Promotion Considerations boxes focus on preventive strategies for achieving prenatal wellness, health during pregnancy, postpartum health, newborn health, and pediatric illness prevention and wellness--including Canadian immunization schedules for all ages. Unfolding case studies with open-ended critical thinking questions assess application of content to practice as students follow one family through conception and the birth process. Nursing Care Plans provide expected outcomes, interventions, and rationales for nursing interventions. Comprehensive coverage of over 35 skills, outlined in step-by-step format cover a wide range of maternal and pediatric nursing interventions. Focus on health promotion and illness prevention, covers women's health issues, and growth and development of child and parent. Cultural considerations applied as they relate to maternal/infant, and pediatric care in detailed tables. Safety Alerts emphasize protecting patients, family, health care providers, and the public from accidents, medication errors, and the spread of disease. Nursing Tips throughout text provide pertinent information applicable in the clinical setting. NEW! Fully revised content for a Canadian audience includes statistics, terminology, references and resources, 2019 Canada's Food Guide, guidelines from the Society of Obstetricians and Gynaecologist's of Canada (SOGC), the Canadian Paediatric Society (CPS), and the Public Health Agency of Canada, Canadian nursing best practice guidelines, assessments, and more! NEW! Strong focus on health promotion includes application of the social determinants of health, greater emphasis on community nursing, primary health care, and family-centred care approach. NEW! High-Risk Newborn chapter combines preterm/post-term newborn with the child born with a congenital condition. NEW! Chapter covers caring for the child with a chronic illness or in palliative care. UNIQUE! Baby-Friendly initiatives incorporated throughout the text. UNIQUE! Canadian cultural considerations include content related to Indigenous Peoples is threaded throughout all applicable chapters. NEW! Updated labour information based on Canadian guidelines and the five P's of labour. NEW! Complete inclusion of Canadian medications, dosages, and metric measurements. NEW! Enhanced and updated art programme reflect Canada's cultural diversity in the health care setting. NEW! Coverage of Canadian ethical and legal standards, and provincial and

territorial legislation. NEW! Critical Thinking questions applies concepts learned in the chapter to practical situations. NEW! UPDATED! Examination review questions prepare students for their Certification Exams. NEW! Expanded coverage on safety includes maternity and pediatric care in the home and community

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

Here's just what you need to effectively care for your patients at any stage of life in today's ever-changing world of health care. Elaine Polan and Daphne Taylor guide you through the life cycle—from conception to old age—with an emphasis on health promotion, maintenance, and restoration in clinical practice.

Increase your awareness and understanding of a holistic view of mental health care with this book for nurses and other health care professionals. Each chapter covers a specific psychological or psychosocial problem as well as the most current interventions and treatments. This edition features full-color illustrations, updated drug information, and a chapter on complementary and alternative therapies, in addition to more case studies to help you apply the content to real life. This solid background in mental health is just what you need to work comfortably with clients who exhibit both effective and maladaptive behaviors. Multidisciplinary care plans for sample clients show how members of the health care team work together. Client-specific case studies highlight particular mental disorders and help you apply chapter content to real-life situations. "Think About boxes throughout the text strengthen your critical-thinking skills. UNIQUE "Drug Alert boxes highlight what you need to know about a wide range of specific psychotherapeutic medications. UNIQUE Standard LPN full-color design and "Content Threads point out key information and special features in each chapter, consistent with the format of other books in the LPN Threads series. Appendixes give you easy access to mental health care standards, DSM-IV TR diagnoses, and assessment tools that are essential for providing quality care. FREE workbook at the end of the book includes crossword puzzles, multiple-choice questions, and other exercises to boost your comprehension of the material. FULL-COLOR illustrations make the text even more visually appealing and user-friendly. Additional case studies help you apply chapter content to more real-life scenarios such as chronic illness and substance abuse with accompanying questions to test your critical-thinking skills. Chapter on complementary and alternative therapies increases your awareness of the benefits and risks of alternative therapies such as ayurveda, herbal supplements, massage, meditation, acupuncture, and telemedicine. Forensic nursing content familiarizes you with the prevention and treatment of violence-based disorders and shows you how to obtain and document evidence for legal purposes. NEW antianxiety and antimanic drug information keeps you up-to-date on the latest psychotropic medications.

Finally! A new OB/peds textbook that focuses on what LPNs must know. You'll find just the right depth and breadth of coverage with a focus on the knowledge and skills that LPNs need to know to practice safely.

This book provides introductory coverage of growth and development throughout the lifespan. The content emphasizes normal aspects as well as the unique problems and health promotion needs of each age and stage of development. It features a strong health promotion theme structured around Healthy People 2020 objectives. Lifespan coverage from prenatal development to death helps students integrate concepts related to normal changes in each stage of the life cycle. Coverage of current research and trends in health care provide readers with the most up-to-date, accurate information. Health promotion and disease prevention, including Healthy People 2020 objectives, are highlighted throughout the book. Cultural content is highlighted throughout the book and in new Chapter 3: Cultural Considerations in Health Care to encourage students to consider cultural implications at every stage of development. Separate chapter on advanced old age and geriatrics (Chapter 14) discuss the theories, physiological changes, and psychological aspects of aging; health promotion and maintenance; and the role of health care providers in caring for the geriatric patient. All of this helps students understand how to maintain quality of life and promote health in advanced old age. Teaching techniques for every developmental stage are part of a consistent chapter format and provide age-appropriate patient education tips. Consistent chapter organization for each stage of growth and development makes information easy to access. Critical Thinking scenarios and questions appear at the end of each chapter to help students consider all variables when planning care across the lifespan. Student learning features include Objectives, Key Terms, Key Points, and Review Questions. Appendix A includes the FDA's Recommended Child and Adult Immunization Schedules, providing essential health promotion information. NEW Appendix B provides a Multilingual Glossary of Symptoms to enhance students' awareness of culturally sensitive care. Glossary includes definitions of Key Terms and additional terms help students review concepts and terminology at a glance. Bibliography is organized by chapter at the end of the book to facilitate additional research and study.

Patricia Castaldi, RN, MSN1999. 432 pp., 100 illus.
