Psychoanalysis is defined as a set of psychological theories and therapeutic methods which have their origin in the work and theories of Sigmund Freud. The primary assumption of psychoanalysis is the belief that all people possess unconscious thoughts, feelings, desires, and memories. The aim of psychoanalysis therapy is to release repressed emotions and experiences, i.e., make the unconscious conscious.

03 July, 2019. On the one hand, Surrealism seeks to influence the thinking of the human mind. It does so by evoking the feelings of the unconscious mind using visual arts as a tool. Psychoanalysis, on the other hand, attempts to explain how human behavior is influenced by past events that remain stored in our unconscious mind.
